MONTHLY LIVESTOCK SLAUGHTER REPORT

This report is based on information received by the U. S. Department of Agriculture from a representative number of meat-packing establishments. It indicates the average live weight per animal, average yields of dressed carcasses, the average cost per 100 pounds of live weight for cattle, calves, hogs, and sheep and lambs slaughtered during March 1943. Comparable data are included for previous months. The report also shows the percentage of purchases at public stockyards and direct purchases from producers, the classification of animals purchased, and records of monthly slaughter under Federal inspection.
